VISION

To create an educational environment where knowledge, skills, rich morals and ethical value systems coalesce together to transform greenhorns into competent professionals, ready to take challenges and emerging needs of the society.

MISSION

- To provide quality academic programme in the field of Commerce, Information Technology and Management through dynamic professionalism.
- To provide learning opportunities beyond academics to help students adapt to the changing global needs.
- To develop faculty as friend, philosopher and guide, who can collaborate with students and push them beyond their limits.
- To develop an educational infrastructure that provides sophisticated teaching aids and follows the best teaching practices.
- To promote rich moral and ethical values to help students become responsible citizens and caring human beings.
- To inculcate sense of commitment and social awareness amongst the students.

APPROACH

- To promote conceptual and theoretical understanding of the respective subjects.
- To demonstrate the acquired theoretical knowledge through regular practicals under close observation of teachers.
- To encourage students to understand the needs and the application of the acquired theoretical and practical knowledge in the industry.
- To provide opportunity to work on projects to develop their application skills.
- To promote basic human and social values of human equality and fellow citizenship for strengthening social harmony.

FROM THE PRESIDENT'S DESK –

I congratulate you for your decision to join one of the most prestigious Institutions of higher learning in central India. It is an Institution which has carved a deep niche in the field of education and is surging ahead towards the zenith of knowledge acquisition. CPC is the only college that not only connects the students with the society with wide array of activities, but inspire them to participate in extensive activities which effectively bridges the gap between education and employment. Parental involvement in a child's education process is both a gift to a child and a gift to the college. This partnership is strongly encouraged and highly valued at CPC. The practical experience of learning enables our children to leave our college daily with either something in their hand, something in their mind and especially something in their heart.

“As the head of the family, I assure you that imparting quality education with innovative teaching learning module remains our prime concern. I recommend that while joining the college, acquaint yourself with the rules and regulations of the college, the syllabus, guidelines given in the prospectus and the college website. Attend your classes regularly and develop your personality. College life for you may mean freedom from the strict disciplined school regime, but remember, discipline leads you to become a successful person. Do not hesitate to approach your teachers or me for guidance.”

Wishing you a purposeful sojourn and a bright career ahead!

Mohan Gandhe

President
